## Playoff Bowling firsts.

This is the first year we have done playoffs for the league championship. I believe it was a success. In the final week of the regular season, there were 13 teams that were involved in playoff scenarios. This is a big change from previous seasons when only 4 or 5 teams would have a chance at the league title. Our first playoff sweep was achieved by Split Happens. They easily knocked off Herrre's Eladio! RJ Shaw led the charge with his

best night of the year, shooting a 681 series. Dave Dube was also on fire as he had season-high game and series scores (214, 557). Herrre's Eladio!, missing a key teammate in John Musulin, couldn't match their strength. In the second matchup, Black Ballers jumped out to a huge lead, but almost dropped the ball in the 3rd game defeated Mine's in the Gutter 3-1. They had strong performances from Marcus Matthews and Marques Edge as they both had season-high series. Marcus Matthews shot a 509 while Marques Edge finally cracked 600 shooting 612. In the Roy Munson division, Wrecking Balls took care of business with a 4-0 sweep of Danny & the Miracles. Again, personal or season-high records were set. James Richards recorded season-highs with a 196 game and 503 series. Game 2 was the clincher for Wrecking Balls. They won that game by 111 pins. The final matchup of the night saw Bumpers Needed and Diversity Personified go to a tiebreaker game. DP had a 2-0, 27 pin lead going into the final game. They just couldn't finish their pesky rivals off in regulation. The tiebreaker was a quiet affair as not a soul said boo. It was so quiet you could hear a pin drop (pun intended). In the end, DP outlasted BN. All the extra practice that Vin Velez put in on Monday nights paid off as he had the strongest game in OT shooting a 224.
